SUMMARY

Aspiring Data Analyst with a strong foundation in Python, SQL, and data visualization. Built 10+ personal projects covering data analysis, web scraping, and cloud services. Eager to contribute analytical skills and grow in a data-driven organization.

TECHNICAL SKILLS

Programming: Python, SQL
Data Analysis: Pandas, NumPy, Web Scraping (BeautifulSoup, Selenium)
Visualization: Power BI, Excel (Pivot Tables, Advanced Formulas)
Cloud: AWS (S3, Lambda, Athena), Microsoft Azure
Tools: Jupyter Notebook, Git, VS Code

PERSONAL PROJECTS

- Sales Dashboard with Power BI
Built interactive dashboard analyzing 10K+ sales records; implemented DAX calculations and data modeling.

- E-Commerce Web Scraper
Developed a Python scraper for product data collection; automated cleaning and structured storage.

- Customer Segmentation Analysis
Applied clustering algorithms using Python and Pandas; visualized key customer groups.

- Weather Data Pipeline on AWS
Built a cloud pipeline using S3, Lambda, and Athena; automated collection from public APIs.

- Financial Data Analysis in Excel
Created a comprehensive workbook with pivot tables, dynamic charts, and forecasting.

- SQL Database Design Project
Designed a normalized schema for a library management system; wrote complex queries and procedures.

EDUCATION

Bachelor of Science in Computer Science
University of California, 2020 - 2024
Coursework: Data Structures, Database Systems, Statistics, Algorithms

CERTIFICATIONS

- Google Data Analytics Professional Certificate (2024)
- AWS Certified Cloud Practitioner (2024)
- Microsoft Power BI Data Analyst - PL-300 (2024)
- Python for Data Science - IBM (2023)
- SQL for Data Analysis - Udacity (2023)
